Allowable Subject Matter

Claims 15-35 allowed.

The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fail to anticipate or render obvious the following technical features as recited in the highlighted claims:

Art Unit: 2612

Referring to claims 15-21 and 22-32, the prior art fails to teach or suggest "...comprising the step of ensuring movability accurately and exclusively in said preselected direction by a link of said device to said reference system movable in at least three articulate areas having articulate structural axes which are mutually parallel and perpendicular to said preselected direction".

Referring to claims 33-35, the prior art fails to teach or suggest "...so that said device can be linearly moved a limited distance in a direction perpendicular to said imaging beam axis".
